ABOUT ME

Hello, I am Mohamed Mahdi, Full Stack Web Developer, I have developed many websites and web applications, I love creating systems that help individuals and companies, not only in automating tasks and saving time but also in simplifying business processes and aiding in decision making. I have various experiences such as online store systems, online food ordering systems, e-learning systems, accounts and point of sale systems, to reach digital and technical transformation and business development

EDUCATION

Information Technology | University of Kordofan

10 - 2020

alubyyed, Sudan
